

LD-10 CASTER INSTALLATION

Assembly Instructions:

- 1) Carefully lay the unit face down on a flat surface, **BEFORE** peeling off protective film.
- 2) Mount the 2 swivel wheels closest to the door of the unit, and the 2-fixed wheels on the face edge, using the 16—1/4-20 x 3/8" flanged hex head machine screws included. These will screw into the nuts that are attached to the base of the unit.
