Ex-Cell's Echelon Collection brings our reputation for quality together with a refreshing, unique product family that can accommodate virtually any public space environment.

The Echelon Product line has been extended to include two additional versions; the Echelon Slim and the Echelon Half-Hex collection.

The Echelon SLIM features a slimmer, more compact footprint and 34 gal. capacity in a single or dual stream unit.

The NEW Echelon HHX with its smooth 38° & 52° degree edges brings the concept of a half round unit to an entirely new level! Difficult to describe its uniqueness and beauty, impossible to ignore. The Echelon HHX is ideal for convention centers and hotels. Our Ash/Trash versions are a real JACKPOT for gaming as well!

With these product additions, the Echelon Product line is truly a collection that can serve the different needs of a facility, while maintaining a consistent look.
