Product Dimensions:

14 ½"L x 19"W x 23 ½"H

Weight: 6 ½ lbs.

Single Shipper: 15"L x20"w x26"H

Cube: 4.52

UPC: 0-27061-21080-3

The contemporary styled Ash Wood veneer hamper is a tribute to the 126 years of design experience at the Redmon Company. This hamper is carefully crafted to Redmon specifications from the finest Ash veneer that is laminated and then steam bent into a permanent elliptical shape that is seamless in appearance. All exposed edges on the lid and body are then laser cut for the smoothest possible finish. The bottom of the hamper is mitered at a 45 degree angle that allows for no visible seam where the bottom and the body of the hamper are joined together. The quality of this hamper is truly second to none. There are two laser cut handles for easy carrying and there are four rubber pads on the bottom to protect hardwood floors. Finally, the hamper is shrink wrapped for added protection during shipment and display on the shelf. Included is a hang tag that adds perceived value to a beautiful and durable product that if cared for will last decades.
